

Problem-Solution Fit

Date	30 June 2026
Team ID	
Project Name	Rising waters
Maximum Marks	5 Marks

Problem-Solution Fit Canvas:

Use the framework below to ensure your proposed solution accurately addresses the root causes, behaviours, and limitations of your target audience. Fill out the canvas in the respective boxes just like the original visual template.

1. CUSTOMER SEGMENT(S) [CS] People living in flood-prone areas Disaster Management Authorities Local Government Officials Farmers Emergency Response Teams	6. CUSTOMER LIMITATIONS EG. BUDGET, DEVICES [CL] Limited internet connectivity Lack of smartphones in some rural areas Low technical awareness Limited disaster preparedness resources	5. AVAILABLE SOLUTIONS PROS & CONS [AS] Pros: Easy to implement Reliable weather information Cons: Less accurate Delayed alerts Cannot predict localized flooding effectively
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] Sudden floods causing loss of life and property	9. PROBLEM ROOT / CAUSE [RC] Climate change causing extreme rainfall Poor drainage systems	7. BEHAVIOR + ITS INTENSITY [BE] People usually respond only after official alerts

Late or inaccurate flood warnings Poor evacuation planning Crop and infrastructure damage Frequent during monsoon and heavy rainfall seasons	Lack of real-time monitoring Inaccurate traditional prediction methods Delayed communication of flood warnings This content is concise and suitable to write	Some ignore warnings due to false alarms High panic during heavy rainfall Need quick and simple notifications
3. TRIGGERS TO ACT [TR] Heavy rainfall alerts Rising river/water levels IMD weather warnings Flood prediction notification from the system Community emergency alerts	10. YOUR SOLUTION [SL] Rising Waters is an AI-powered flood prediction and early warning system that uses rainfall, weather, and river-level data to predict flood risks. It provides real-time alerts through mobile apps, SMS, and dashboards, enabling authorities and citizens to take timely action, reduce damage, and save lives.	8. CHANNELS OF BEHAVIOR [CH] ONLINE 1.Mobile application 2.SMS alerts 3.WhatsApp notifications 4.Email alerts 5.Government disaster management websites
4. EMOTIONS BEFORE / AFTER [EM] Before: Fear Anxiety Confusion Panic After: Confidence Preparedness Peace of mind		OFFLINE 1.Sirens 2.Public announcements 3.Local volunteers 4.Police & Disaster Response Teams 5.Community meetings
